

Now Hiring

College grads: Jump-start your career

The Class Hires Program is a comprehensive training program that builds a relevant foundation of knowledge and skills in the financial services industry—and sets you up for success in entry-level positions at Parametric. Departments include Portfolio Administration, Investment Operations, and Client Relations, all located in our Seattle office.

- Over the course of three weeks, you'll learn about Parametric's history, investment philosophy, products, and the technical skills related to your role.
- You'll interact with staff across all levels and departments, including Portfolio Management, Wealth Management, Institutional Sales, and Product Management.
- You'll get to job-shadow, attend internal networking events, have lunch with the executive team, and more.

We're looking for motivated people to join the next group of class hires at Parametric. **You could be one of them.**

Parametric, headquartered in Seattle, is a leading global asset management firm providing systematic, rules-based investment strategies and customized exposure management to institutions and individual investors around the world.

"The [Class Hires Program](#) allows you to make instant connections at the company—not only with your peers but with people at all levels. The discussions top management had with us were invaluable and allowed us to see the company's vision for the future. I don't think many people coming out of school get this type of face-to-face experience."

Dakota Radigan
Client Onboarding Associate, Class of 2018

"When starting a new job right out of school, everyone wants to understand the company they're working for, the people they're working with, and how everything fits together to make an impact. The [Class Hires Program](#) answers these questions and more, laying the groundwork for a successful start to a career at Parametric."

Ben Reidy
Client Reporting Associate, Class of 2018
